

Thousands of satisfied customers—law enforcement agencies, governmental agencies, sporting good stores and home owners—are enjoying the Zanotti Armor® difference.

“I had high expectations and can honestly say that they have been exceeded. The attention to detail... and... the quality of materials and workmanship are first-rate. I’m glad I bought your product... keep up the good work.”  
B.R. Succasunna—New Jersey

“The safe arrived today. I am extremely pleased. It is finely made, and the level of security gives me great peace of mind. I move often, and the fact that it comes apart is extraordinarily valuable to me. I am very happy with it.”  
T.J. Gaithersburg—Maryland

“I must say that I could not be happier. Any other safe would have required the enlistment of a moving crew. Thank you for making a quality product at an affordable price.”  
D.B. Ballwin—Missouri

Old-world craftsmanship, coupled with American ingenuity, has allowed Zanotti Armor to bring an unparalleled level of quality to the gun safe marketplace. Our interlocking safe incorporates all the features and benefits of a one-piece welded safe with an added bonus: mobile versatility.

**Zanotti Armor Interlocking Safe:  
A Quality Design**

- Six easy-to-handle interlocking panels (including door)
- Fully assemble safe in about 20 minutes with only a hammer
- 3/8" solid steel pins lock safe's walls together
- Assemble safe in tight spaces
- No extra costs (moving crew, cartage company, dolly rental) necessary. Easy to move, install, assemble and disassemble
- Ships in 3-4 boxes

Purchasing and installing a Zanotti safe in your home could qualify you for reduced insurance rates and tax deductions!

**Fire Protection**

All safes, no matter the brand, are fire resistant; not "fire proof." There is a set period of time at a certain temperature during which a safe protects its contents. Zanotti Armor withstands 1200° for about 20 minutes.

No other safe manufacturer can offer the mobility and versatility of Zanotti Armor. Our safes still are hand-built, one at a time in the U.S.A.

**Zanotti Armor Interlocking Safe:  
Standard Features**

- 3/16" recessed-plate steel door with a 3/8" drill-resistant hardened lock plate
- Group II Combination Lock
- Minimum of 5 3/4" nickel-plated, active locking bolts secure door from both sides, preventing entry even with hinges cut off
- Heavily reinforced door frame
- Sides and back of safe are 1/8" steel; top and bottom of safe are 3/16" steel
- Laser cut, anti-pry locking mechanism
- Triple Relocking System
- Pre-drilled back wall allows addition of the GoldenRod® dehumidification system
- Can be lagged to floor
- 100% no-lint nylon, low-pile marine carpet (resists moisture & staining) covers interior floor & adjustable shelving
- Pegboard lining on door for easy storage
- Raised floor platform prevents gunstock damage

**Options**
